

ARMISTICE®

Any doubt about your child's shoe size ?

Armistice has created for you a printable pedimeter dedicated to the Stone One and Volt One for children.

How to use it ?

1. Print the pedimeter at 100% scale (do not resize), then check using the scale that the proportions are correct.
2. Fold or cut the pedimeter along the continuous line. Place the sheet against a wall.
3. Stand on the guide with the heel against the wall. Draw a line at the tip of your foot.
4. Interpret the result: if your measure fall between two sizes, then select the bigger size

SCALE

To make sure you have printed the pedimeter at the right size, get a ruler and measure the scale above, it should be 5 cm.
